CONGRESS.

SENATE—Wednesday, December 4.

[The motion offered by Mr. Varnum to repeal the Compensation Law, was on his motion, yesterday, postponed to Monday next]

Mr. Sanford offered sundry resolutions for the distribution of the most prominent parts of the President's Message among several committees. They lie on the table for consideration.

Mr. Morrow, from the committee appointed to enquire whether any, and if any what, legislative measures may be necessary for admitting the state of Indiana into the Union or for extending the law of the United States to that state, made a report, concluding with a recommendation of the following resolution:—

"Resolved, by the Senate and House of Representatives of the United States of America, in Congress assembled, That the state of Indiana, having formed to themselves a constitution and state government, conformable to the constitution and laws of the United States, and to the principles of the articles of compact between the original states and the people, and states to be formed in the territory north west of the river Ohio passed on the 13th day of July, 1787, the said state shall be, and is hereby declared to be one of the U. S. of America, and admitted into the union on an equal footing with the original states in all respects whatever."

The resolution received its first reading,

Mr. Varnum submitted the following resolution for consideration:

Resolved, That a committee be appointed to enquire into the expediency of requiring the Directors of the Bank of the United States to establish a competent office of discount and deposit within the city of Washington, in the District of Columbia, and that they have leave to report by bill or otherwise.

This motion also lies on the table of course for one day.

HOUSE OF REPRESENTATIVES.

The following members, besides those already mentioned, attended on Tuesday: Messrs. James B. Mason, George Baer, William C. Love, Daniel Avery and Wm. P. Maclay.

The name of Wm. Blount of Tenn. was omitted in the list of the members which we published. He attended the first day. We have stated that Mr. Nelson of Virginia, in offering, on Tuesday, a motion for the repeal of the compensation law, prefaced it with no remark. He omitted to do so, because he believed such a course on presenting a motion for consideration to be inconsistent with the rules of the house.

Wednesday, Dec. 4.

Mr. Thomas M. Nelson of Virginia and Mr. Samuel R. Betts, appeared and took their seats.

The following petitions were presented and appropriately referred.

By Mr. Yancey, the petition of Nathaniel Williams, praying to be discharged from the imprisonment, at suit of the U. States.

By Mr. Grosvenor, the petition of Elias Parks (presented at a former session.)

The President's Message

The House having resolved itself into a committee of the whole, on the state of the union, Mr. Nelson in the chair, the following subdivisions and distribution of the President's Message, was made by several resolutions offered by Mr. Taylor of New York, and adopted by the committee:

So much of the Message as relates to the subject of Foreign affairs and commercial intercourse with the British Colonial ports, was referred to a select committee; so much as relates to our military affairs, to a select committee; so much as relates to a re-orginization of the Militia, to a select committee; so much as relates to our naval affairs, to a select committee: so much as relates to manufactures, to the committee of commerce and manufactures; so much as relates to altering the condition of the Indian tribes within our limits to a select committee; so much as relates to an uniformity of weights and measures, to a select committee; so much as relates to the establishment of a National University within the District of Columbia, to a select committee; so much as relates to roads and canals, to a select committee; so much as relates to a revisal of the criminal code, and to a revisal and modification of the Judiciary, to the committee on the Judiciary; so much as relates to a more effectual mode of preventing the slave trade, to a select committee; so much as relates to the office of Attorney General, and to the establishment of an additional Department in the Executive branch of the government, to a select committee; so much as relates to the revenue, to the committee of ways and means; so much as relates to an uniform national currency, to a select committee; all the committees to have leave to report by bill or otherwise.

These resolutions, the committe having risen, were concurred in by the House.

COMPENSATION LAW.

Mr. Johnson of Ky. rose, and after a speech of more than an hour's length, in which he declared his opinion of the compensation law, when justly viewed, to be unchanged, but his motion to be predicated on the will and implied instructions of his constituents, offered for consideration the following resolution:

"Resolved, That a committee be appointed to inquire into the expediency of repealing or modifying the late act changing the mode of compensation to the Members of Congress, and that they report by bill or otherwise."

Mr. Desha intimated, that when this subject should be fully before the House, there would be more to be said about it; and, as the House had refused yesterday even to consider it, he required the Yeas and Nays on the question of consideration.

A sufficient number not rising to support the call for the Yeas and Nays, they were not called.

The question on consideration was determined in the affirmative, without a division.

And the resolution itself was agreed to without a division.

After agreeing to a motion of Mr. Reynolds, to direct the Secretary of War to lay before the House the Report of the Commissioner appointed to mark and survey a road on Tennesse river, together with an account of the expense attending the same—

The House adjourned.

The following gentlemen are appointed by the Speaker, in pursuance of the order of the House, to compose the committees of the House of Representatives.

George Prince Tamoree.

We have collected, says the Boston Recorder of November 26, the following facts respecting this interresting young man. George is the son of Tamoree, king of Atooi, one of the Sandwich islands. When he was about 7 years old, his father committed him to the care of the captain of the American ship, who agreed to bring him to America, to procure him an education, and to return him to his father. To defray the expenses of his education, Tamoree gave the captain several thousand dollars.* After the vessel arrived in America, George went with the captain to Worcester, where he remained at school, till the property was all expended, and shortly after the captain died. He was then removed from one family and place to another in the neighborhood of Worcester, till at length being dissatisfied with his situation, he came to Boston, and enlisted in the navy. The first vessel in which George served was the Enterprize. He was in this vessel in the action with the Boxer, in which he was badly wounded. He was afterwards on board the Guerriere, in the action with the Algerine frigate. After the war ended, George was again thrown upon the world; and without any means of obtaining a livelihood, or any one to care for him, ragged, dirty, and in want, he was again enlisted, and employed as a servant to the purser of the navy yard, in Charlestown. In this situation the Rev. Dr. Morse, having obtained some knowledge of his history, procured his release, and took him under his protection to New-Haven in Connecticut, at the time of the public commencement in September last. Here he was received with the utmost kindness into the family of the Rev. President Dwight, and provided with clothes and every thing that could render him contented and comfortable.—At the meeting of the American board of commissioners for foreign missions at Hartford, on the week after commencement, George's case was brought before them, and they resolved to take him under their patronage, to give him such an education as shall qualify him for usefulness, and then to send him to his father. In pursuance of this resolution, George is now in Litchfield county, in Connecticut, in company with others of his countrymen, all of whom are pursuing their studies in the school for heathen youth, recently established by the board and are expected to return in a few years, as missionaries or teachers to their native country.

George is represented to be of a mild and forgiving temper. In conducting the business with which he has been occasionally entrusted, he has discovered much intelligence, as well as the strictest honesty. And amid all the temptations with which he was surrounded, while a common sailor in the navy, he never became addicted to any vice. For several days after his arrival in New-Haven, his countenance indicated a depression of spirits, reserve and distrust, to which a his former situation he had probably been accustomed. This appearance, however, gradually vanished, and he has now become frank and cheerful, and his conversation abounds not only with remarkable good sense, but even with the finest wit. The following letter from George to his father, will serve as a specimen of his composition. The original from which we copied it, is written in a plain legible hand. It will be remembered that George is but 17 years old. He has been in this country 10 years.

To Kummoree,† King of Atowy, one of the Sandwich Islands.

Guildford, Conn. [U. S.] *Oct.* 19, 1816.

Hon. and Dear Father—I have undertook to let you know how I have been treated since I left your habitation. I was neglected very much by the man you sent me with: after we came to America, the Capt. Rowin became very temperate and exposed with the property you sent with him for my education and I have had to shirk for myself, after I left you I came to Providence in America, and then I went to Boston in America and lived a year or two, and then I went to Worcester in the State of Massachusetts, in America, and there I lived with the capt. Rowin about two years, I lived with him till he spent the property and then he put me into the hands of capt. Cotting, of Worcester, and then I went to Pitchburg, a town in the state of Massachusetts, and I lived with him till he became very poor, and then I thought I would seek for my own living rather than to live with him, and then I went to Boston and enlisted in the United States service, and I shipped on board the Brig Enterprise, in order to go and fight with the Englishmen. After I went on board I went to sea then, & I was about thirty days from land before we meet the enemies that we wear seeking after. We came to an Action in a few minutes after we hove in sight. We fought with her about an hour, and in the mean time, I was wounded in my right side with a boarding pike, which it pained me very much. It was the blessing of God that I was kept from Death. I ought to be thankful that I was preserved from death.

I am going to tell you more of my being in other parts of the world. I then was drafted on board the United States ship Guerrier. I went then to the Straits of Mediterranean. I had a very pleasant voyage up there, but was not there long, before we fell in with the barbarous Turks of Algiers. But we come to an action in a few minutes after we spied these people, we fought with them about three hours, and took them and brought them up to the city of Algiers, and then I came to Tripoli, and then I came to Naples, and from thence I came to Gibraltar, and then I came back to America. And now I am in a good way of getting a good education. But I want to see you very much—I hope I shall come and be with you the rest of my life, but if I don't see you in this world I trust I shall see you in the world to come, and then we shall speak face to face. I may come and be with thee but it will not be but a few days before I shall come and be with thee. I hope I shall be a benefit to you. You must not expect yet awhile, but if God spares my life, I shall be there in a few years.

I am, your affectionate son,

George Prince Kummoree.

* George says the mate of the vessel told him 7 or 8,000.

† We have printed the name as it is spelt by George. We are assured however, by respectable authority, that it should be spelt Tamo , or Tamoree.

SANDWICH ISLANDS.

We have conversed with a gentleman who has recently arrived from the Pacific Ocean. He states, that it is not correct, as has been reported, that Tamaamah has conquered all the Sandwich Islands. Atooi, which is at one extreme of the groupe, and is more than 300 miles from Owhyhee, where Tamaamah resides, still preseves its independence. It is true that Tamoree went down several years since and made a surrender of his island to Tamaamah; but has since thought better of it, and has concluded not to yield without a struggle. Our informant represents Tamaamah to be an artful, sagacious man, and extremely avaricious. He wants every thing he sees. He is continually soliciting presents from the Europeans, who visit him, and dislikes giving any think in return. Tamoree, on the contrary, is a generous, noble minded man. He cannot be prevailed upon; to accept of any thing without returning an equivalent. We have already recorded an instance of his generosity

in sending his boat in the midst of a heavy gale, to the assistance of an American vessel in distress and which was the means of saving her from shipwreck. This anecdote is a correct illustration of his character. Tamoree is the rightful sovereign of all the Sandwich Islands. Tamaamah is a usurper. Tamaamah had no vessels of more than eight or ten tons burthen. He is anxious, however, to purchase a ship for the purpose, it is supposed, of invading Atooi. Tamoree also wishes to buy a ship. Tamaamah is about 60 years old, and appears to be much broken. Tamoree, is in his prime, 45 years old. We are thus minute, because as the American board of commissioners for foreign missions, will probably fix upon these islands for one of their missionary stations, it has rendered every thing which relates to them unusually interesting. From this statement it appears not improbable, that George may, at some future day, be king of Atooi, if not all the Sandwich Islands. We cannot but notice, that in casting this young prince upon our shore, and in all the circumstances of the case, the hand of Providence seems to be pointed in a remarkable manner to the Sandwich Islands, as a proper field for our missionary exertions. It may be added too, that the share which George has had in the battles which gave us so much naval reputation, and the humanity which his father has manifested to our countrymen in distress, will be considered as giving such a mission a very peculiar claim upon the charity of Americans.

CONSUMPTION OF FLOUR.

BOSTON, November 29.

The mind of man must be continually occupied when large objects do not have a place in his thoughts, small ones will, and both fill an equal space. I have been led to this remark, from hearing many observations recently on the article of Flour—and now the *Harlequin* has done cutting capers, I have revolved in my mind the probable amount of the staff of life, consumed by the people of this town only. According to the last census there were in Boston, rising 35,000 souls. I will now put it at 40,000—admitting that each one eats three quarters of a pound in a day; that makes 150 bbls. calculating 200 lbs. to a barrel—at this ratio there will be consumed in a year 54,750 barrels! Admitting that there are now in Boston 20,000 barrels, [and some merchants say there is more] there is enough to last 4 months and 13 days. If so much is consumed only in this town, how much must there be in the United States? It may oblige many of your readers for some of your ingenious correspondents further to elucidate this subject, which may lead to important results.

Land for Sale.

A tract or parcel of Land, containing between two and three hundred acres, on the north side of Occoquan, in Fairfax county, about 5 miles west of Occoquan mills. It is well watered with never failing springs, it is also well timbered, and the great quantity of fine timber on it renders it the more valuable to any person in the coopering line. This land is of the middle soil, and produces corn, wheat or any other grain tolerable well—there is about 100 acres cleared and under good fence. The improvements are a log dwelling house & other out houses, and a good apple orchard of about sixty trees.

ALSO,

One other tract in the same county within three miles of Occoquan, lying on Sandy Run, containing 47 acres—one half in cultivation and under good fence, the remainder heavily timbered. There are on the premises an old framed dwelling house and out houses and an apple orchard of eighty bearing trees.

Any person inclining to purchase can view the premises and know the terms by applying to the subscriber who lives near them.

NEW-YORK, Dec. 4.

Distressing Calamity.—On Tuesday night, about half past 11 o'clock, a fire broke out of the cabinet work-shop of Mr. J. Hewitt, in Water street, on the south side, between Burling and Beekman slips, in the midst of a number of wooden buildings; and owing to a strong westerly gale, and the combustibility of the materials, the whole block, with the exception of three fire proof stores, were soon laid in ruins, consisting of between thirty and forty buildings.——The stores occupied by Mr. Anson G. Phelps, and recently by Isaac Wright and Son, corner of Burling slip and Front-street, and the two stores in Front-street occupied by Gurdon and Daniel Buck, and Thomas A. Smith & Son, were the only buildings which escaped the ravages of the fire.

Several houses on the north side of Water-street, opposite where the fire commenced, were also much injured, which, with the loss of property in goods and household furniture, cannot be estimated at less than 200,000 dollars.

25 Dollars Reward.

Ran away from the subscriber this day week, an apprentice lad named DAVID ROLLISON, aged 19 years, about 5 feet 5 inches high, dark complexion, down look and round shouldered—had with him a dark mixed grey short jacket and trowsers and sundry other clothing not recollected, excepting a good fine hat.

This is the second time of his elopement. He worked with Mr. M'Kenney in Georgetown, as a freeman, 18 months ago, until discovered.

I will give Five Dollars if found in Alexandria—Ten Dollars if found in Georgetown or Washington—and Twenty five Dollars if as far off as Baltimore, on having him secured in jail, with reasonable charges.

Andrew Jamieson.

JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,

Have just received from LEE'S PATENT MEDICINE Store, No. 46 Maiden Lane, N. York.

A FRESH SUPPLY

Of the following genuine Medicines.

For the prevention and cure of Bilious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills.

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern & Middle States, particularly in N. York Philadelphia, Baltimore, Petersburg Richmond. Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to carry off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions orfoulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz.—The Teres, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tænia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during th warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens it is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.
